

Our company

A TASTEFUL STORY

International
food
p l a n t b a s e d

Our values

A FAMILY, FOR ALL THE FAMILIES

1977

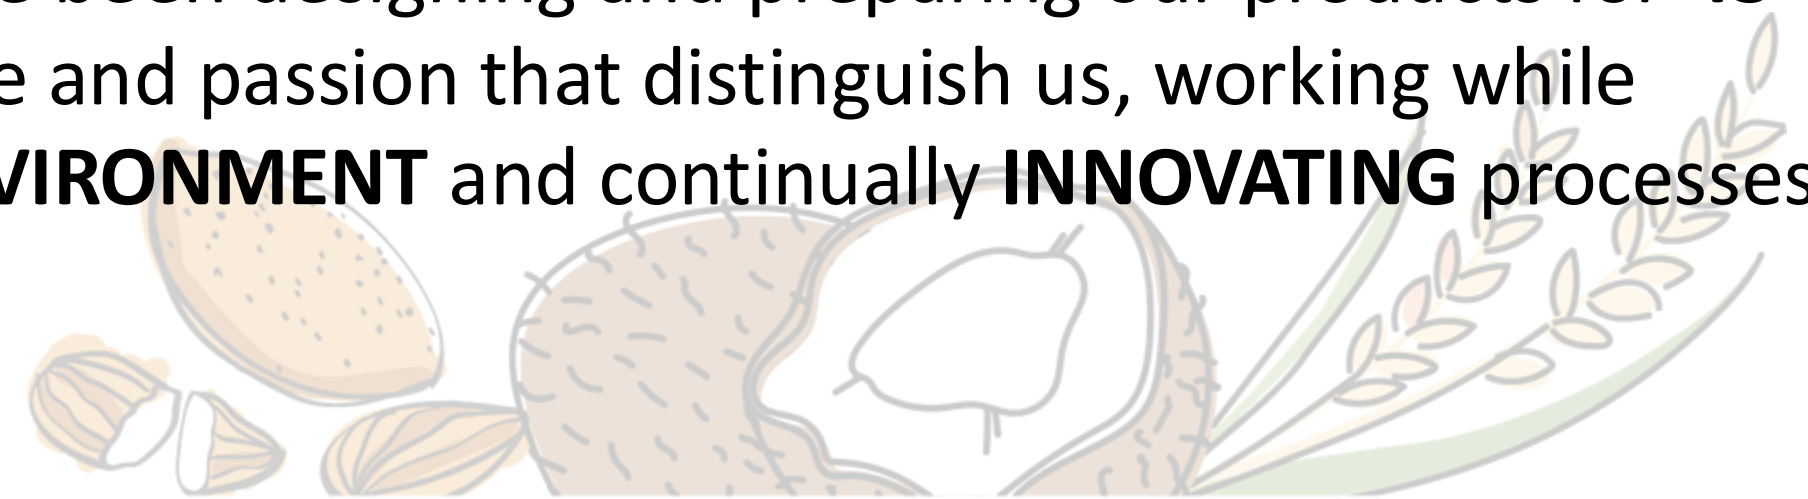

Gallo family began producing plant-based milks due to their son's lactose intolerance

Family recipes were then industrialized by transferring the message that **WELL-BEING** comes through correct nutrition

So, we became passionate about **natural, healthy and tasty nutrition** for everyone! We have been designing and preparing our products for **45 years** with the care and passion that distinguish us, working while respecting the **ENVIRONMENT** and continually **INNOVATING** processes and recipes

A sustainable and green choice

SUSTAINABILITY is the principle that guides us, a conscious choice born from a green company philosophy

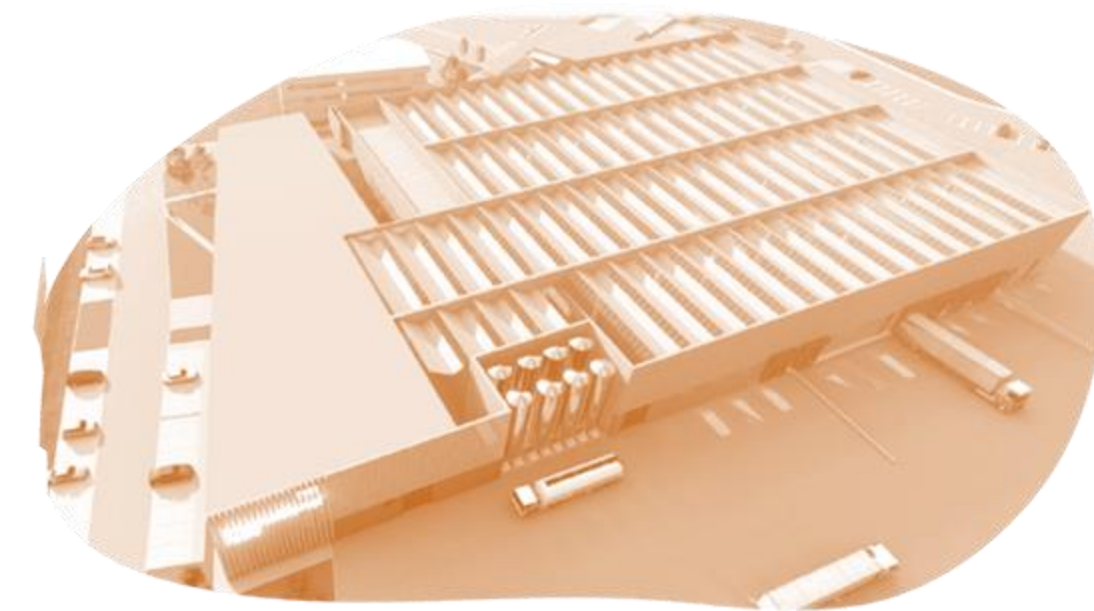

We select only **EXCELLENT** raw materials, grown where agriculture is practiced with **RESPECT** for nature and the rhythms of the earth, guaranteeing a **short supply chain from the farm to the table**

Our story

FROM AN ITALIAN FAMILY COMPANY TO A MULTINATIONAL FOOTPRINT

1979 Our founder starts developing plant-based Products

1993 Plant based milk became the focus

1999 Our IP Technology was defined – Extraction directly from the grain

2005 Industrial scale-up

2012 Second generation steps into the team

2016 International Expansion

2022 Participation

2024 New facility, doubling-down our production capacity

What we bring to the table

<< *SIDE BY SIDE* >> *PRODUCT DEVELOPMENT WITH OUR PARTNERS*

R&D

- **Strong know-how** acquired over many years of experience, being one of the first plant-based producers
- Continuous investments in **research and innovation**

Procurement

- **Quality and controlled raw materials' selection**
- **Certified supply chain**

Production

- **Production process with 'extraction from the grain'** granting organoleptic and nutritional superiority
- **Production flexibility** with customization of recipes and packaging

Fresh ingredients

Extraction and packing

Final product

- ✓ **Improved texture.** Naturally higher product density resulting in a creamy delightful texture
- ✓ **Improved flavor.** Richer, more nuanced and natural flavor
- ✓ **Vitamins and minerals preservation.** Extraction from the seeds means lower processing and higher natural nutritional values
- ✓ **Less additives.** Being naturally flavored and with a pleasant texture, the need for additives and preservatives is reduced
