

SEVEN FRUIT WALNUT

Focus on Walnut Industry

HEBEI SEVEN FRUIT TRADE CO.,LTD

COMPANY INTRODUCTION

Hebei Seven Fruit Trade Co.,Ltd. is an import and export company specializing in the deep processing of walnut products. The company's deep processing of walnuts began in 2015. After years of development, it now has high production standards for walnut oil, walnut powder, canned nuts, export-grade walnut kernels, ultra-fine walnut shell powder, etc. it is a pioneer in the walnut deep processing industry. The company's assets of nearly 100 million companies in the same industry took the lead in passing the SC production license certification, ISO9001: 2000 quality management system certification, HACCP food safety system certification. The company has formed an industrialized layout of production, supply and sales, and integration of agriculture, industry and trade.

With an annual processing capacity of more than 5,000 tons, the company covers all major regions of the country and has established marketing networks in Beijing, Guangzhou and other provinces and cities. The company's products are exported to Japan, the Middle East, Europe and other countries and regions.

The companies adhering to the "quality first, customer first" business philosophy, and strive to provide more professional services for the walnut industry customers. Sincerely welcome people of insight to cooperate with the company for a win-win situation and take off together!

► Walnut Planting Base

R&d
Department

► Our R&D Center has obtained the Hebei Provincial Industrial Enterprise R&D Institution Certificate and Obtained two certificates of scientific and technological achievements in Hebei Province

Walnut Kernel Workshop

- The production and processing workshop has passed the registration of Shijiazhuang Customs and obtained export qualifications. Our products serve professional food users (such as baking, dairy, Ajiao, etc.) and are best-selling both domestically and internationally.

Walnut oil Workshop

- The equipment developed and produced by COFCO Group is currently the one of largest walnut oil production workshop in China, achieving full physical cold pressing and refining, ensuring the purity and natural color of the products.

Walnut powder Workshop

- The production line is equipped with advanced equipment and adopts spray drying system to ensure product purity and water solubility as much as possible. Our company can provide OEM processing according to different customer needs

Canned Nuts Workshop

- Introducing vacuum fryer equipment to reduce frying temperature and oxygen concentration inside the fryer, resulting in a fragrant and crispy product with a rich aftertaste
