SIMPLE-FIT EARPLUGS

For hearing protection below 105dB, Greendevil has designed the disposable foam ear plugs. Incorporating a unique, new tapered design and manufactured from a soft polyurethane (PU) material for enhanced comfort, wearers use a simple 'Roll, Insert, Twist' action when the earplugs are placed into the ear canal to help create a quicker and more effective fit.

EAR DEFENDERS

Where louder environments require enhanced noise protection, the new range of Greendevil ear defenders offer an array of 'designed-for-wearer' features and benefits.
