

ACSTFR

Direct Measurement Area Volume A Pythagorean
Second Pythagorean Trapezoid Count Down Roller

LASER MEASURE WITH SCROLL WHEEL

2 IN 1 LASER TAPE MEASURE CJ-M

- With laser precision technology, accuracy ups to $\pm 1/16$ inch or 2mm, measuring distance extends to 328 feet/100m.
- 16.5 feet/5 m tape measure Distance, area, volume measurement
- Low battery indication
- Portable size and TPR material, more durable
- Built-in rechargeable battery

3 IN 1 LASER TAPE MEASURE CJ-JC

- 3 in 1 functions: 131ft/40m or 196ft/60m laser measurement, 16ft/5m tape measure and cross line laser for leveling
- Multifunctional laser measure modes that with extreme accuracy within 1/8 inch or 2mm, including Distance, Continuous, Area, Volume, Pythagorean Method-two Points and Pythagorean Method-three Points meeting you different needs and calibration.
- Coated tape measure with metric and imperial readings
- 4 different units: m, inch, feet, ft+in
- Class II laser product, output < 1mW
- Power supply: 2x1.5V AAA batteries

6 INCH Stainless Steel Digital Vernier Caliper

Precise measurement units, multiple measurement modes. With an accuracy of ± 0.02 mm / 0.001 inch.

2 IN 1 LASER DISTANCE METER CJ-D

- With laser precision technology, accuracy ups to $\pm 1/16$ inch, measuring distance extends to 328 feet.
- Switchable units m/in/ft for adjustment
- Large back-light screen provides you with a better visibility in dark areas.
- Multiple measurement modes: area, distance, length, volume, continuous measurement, Pythagorean method-three points, addition and subtraction.
- Low battery indication
- 20 groups data memory
- Portable size and Aluminum alloy material, more fashionable
- Built-in rechargeable battery
- Cross line laser for leveling

2 IN 1 LASER DISTANCE METER CJ-W

- Long range measuring max.up to 330 feet/100 meter with extreme accuracy within 1/16 inch
- Multiple measurement modes: single distance, area, volume, multiple Pythagorean, trapezoidal, countdown
- Path measurement function: Use the wheel roll along patch need to be measured in plane or curved surface.
- 4 different units: m, inch, feet, ft+in
- Class II laser product, output < 1mW
- Power supply: 2x1.5V AAA batteries

Jinhua Hongsheng Electronics is founded in 2010, a manufacturer of DIY electronics measuring tools.

- Factory area: around 5200 square meter
- Main product: laser distance meter, laser level 5 in 1 detector, digital multi-meter, digital vernier caliper, moisture meter, ultrasonic range finder
- 10 years experience in exporting to Europe and serving European customers, including OEM&ODM
- BSCI member, ISO 14001 certified
- TUV Rheinland certified factory
- brand ACSTFR Accurate, Stable, Frontier

With ACSTFR's technology, users can obtain more accurate and stable and cost-effective products for efficient work.

DIGITAL ANGLE FINDER TC027

- Measure angle and length, ruler scales in mm and inch.
- Ruler and protractor combination for easy measuring inside and outside angles.
- Well-made stainless steel rulers and laser etched measurements offer clear reading and years' usage.
- Measure range 0-360 degree; Accuracy ± 0.2 degree.
- Folded/expanded length:200mm(7.8in)/400mm (15.75in)
- Power supply:1x3V CR2032

TIGHTENING KNOB
FULL 360-DEGREES TO MEASURE TOTAL LENGTH 400MM

DIGITAL INCLINOMETER TC037

- 0 to 90-Degree and 0 to 180-degree measurement ranges provide easy use in applications such as woodworking, bending conduit, installing electrical panels, and working on machinery.
- Absolute angle measurement(ABS) and relative angle measurement(REF)
- Strong magnet for mounting.
- Measured values optionally in degrees, percent %, mm/m or in/ft
- Backlight LCD display
- Reverse contrast display and automatically rotates when upside-down for easy viewing.
- Battery-powered 1x1.5V AAA battery

DIGITAL CALIPER MK003

- 0 - 6"/0 - 150 mm measurement range; ± 0.001 "/0.02mm accuracy and 0.0005"/0.01mm resolution
 - High quality stainless steel, practical and durable.
 - Reset to zero in any position
 - Switch from metric (mm) to imperial (inches) measurement
 - measure depth, step, external and internal diameter, making all your objects measurable.
 - Large LCD screen
 - Power supply:1x1,5V LR44
- 

DIGITAL CALIPER TC015

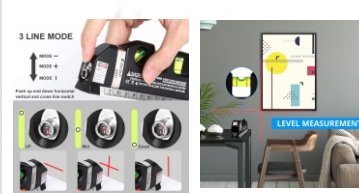

- Allows you to start a new measurement at any point with easy zeroing. Made of high strength plastic material. LCD screen large display and legible writings. Easy to use, light and compact design.
 - Digital micrometer caliper inch/mm 6 inch
 - 4 modes - Measure inside, outside, depth and step
 - Working range:0-150mm
 - Accuracy: ± 0.2 mm
 - Power supply:1x 1,5V LR44 battery (included)
- 

MINI LASER DISTANCE METER CJ-30

- 30m laser distance measure
 - Compact and stylish, portable
 - m/ft/in unit switching
 - The front and rear measurement reference edges can be switched.
 - Built-in rechargeable lithium battery makes the battery last longer
- 

LASER LINE LEVEL LV03

- 4-in-1 multifunctional laser level tool: Integrated the triple-positioned leveling bubble, laser line level, 15cm/6" ruler and 2.5m/8ft measure tape into one small and portable home improvement tools.
 - Designed with one slider selection button in front of the laser window, you can change the laser direction among horizontal, vertical or cross lines by one button operation.
- 

DIGITAL MOISTURE METER TC039

- Wide use for wood, firewood, logs, cardboard and paper
- Measuring wood by sensitive electrode pins at the range of 0-99.9% and accuracy $\pm 0.5\%$.
- 4 Wood modes: including approximately 50 species of wood, which makes measure more accurate.
- Large HD LCD with Data Hold function to show measure results
- Auto power off
- Low battery icon display

MULTIFUNCTION DETECTOR TC003

- Use the multi-functional detector to locate live power cables and metals in walls as well as wooden substructures in drywall constructions.
- Detection depth for wooden substructures in drywall constructions: max. 38mm
- Detection depth for power cables in walls: max. 30mm
- Detection depth for metal in walls: max. 50mm
- Powered by 1x9V battery
- Low battery icon display

DIGITAL MULTIMETER WYB01

- Compact digital multimeter with detachable holster and two measuring tips with measuring cable
- Large 3.5 digit LCD display
- With save function (HOLD) and automatic power off function
- For measuring current, voltage and resistance
- Diode test, battery test and continuity test with integrated sound signal
- Measurement ranges:
DC voltage: 200 mV, 2 V, 20 V, 200 V, 300 V
AC voltage: 2 V, 20 V, 200 V, 300 V
Alternating current: 2 mA, 20 mA/10 A, 200 mA
Direct current: 200 uA, 2 mA, 20 mA/10 A, 200 mA
Battery test: 1.5 V, 9 V
Resistance: 200 Ω , 2 k Ω , 20 k Ω , 200 k Ω , 2 M Ω , 20 M Ω

DIGITAL DEPTH GAUGE Tc034

- Measuring Range: 0 to 80mm (0 to 3-1/8")
- Resolution: 0.05mm (0.002")
- Accuracy: 0.1mm (0.004")
- Two measure mode: relative and absolute measurement
- Three measure units: in/mm/fraction (only shows fraction when the number HAS equivalent fraction)
- Locking screw: transfer measurement easily
- Power supply: 1x3V CR2032

DIGITAL MOISTURE METER CJ-W

- LCD display with back-light, easy to read.
- Mini size, lightweight and portable.
- 2 measurement modes: wood moisture and material moisture.
- Can be also used to measure the environment temperature.
 - C/ F unit convertible.
- Low battery indication and automatic power-off function.
- With probe cover, avoiding accidental injury.

DIGITAL MULTIMETER WYB03

- Measure direct and alternating current, DC and AC voltage, resistance and diodes.
- Auto range function
- Over-power automatic protection
- Easy to read LCD display
- Max. 600V AC/DC voltage, 10A alternating and direct current and 20M Ω resistance

MINI LASER LEVEL BX02

- Red laser horizontal line
- Portable and easy to use
- Meet various usage needs
- I-nail fixation makes it more convenient
- Class II laser product, output < 1mW
- Power supply: 2x1.5V AAA batteries

ULTRASONIC DISTANCE METER TC004

- LCD display
- Measuring distance range: 0.6 to 16m
- Measurement accuracy: +/- 1%
- Laser Class 2
- Battery status indicator
- Temperature display
- Measurements can be displayed in meters or feet
- Measuring and calculating length, area and volume
- Built-in spirit level for precise alignment
- Memory function for storing the last measurements
- Automatic shutdown

6 INCH Stainless Steel Digital Vernier Caliper

Precise measurement units, multiple measurement modes. With an accuracy of ± 0.02 mm / 0.001 inch.

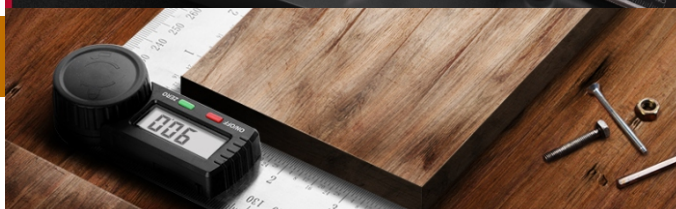

SQUARE LASER LEVEL BX25

- Projects horizontal and vertical laser "chalk lines" on surfaces
- Two suction cups allow the level square to be mounted onto the smooth surfaces (like clean glass and ceramic tile)
- Alignment guide for 90-degree layout-calculate and turning angles in 5-degree increments
- Simple one button operation powers two perpendicular lines (90 degrees) on and off
- Class II laser product, output < 1mW
- Power supply: 3x1.5V AA batteries

MULTIFUNCTION DETECTOR TC009

- Use the multi-functional detector to locate live power cables and metals in walls as well as wooden substructures in drywall constructions.
- Detection depth for stud in drywall constructions: max. 19mm DEEP max. 38mm
- Detection depth for power cables in walls: max. 50mm
- Detection depth for metal in walls: max. 30mm
- Powered by 1x9V battery
- Low battery icon display
