# COMPANY PROFILE

Ningbo Libang Tools Co.,Ltd.(original as Yong'ai Plastic Co.,Ltd)was built in 1996,which is major in producing various kinds of screwdrivers,tool handles and other plastic tools.We are especially good at making bi-color or multicolor injection plastic materials and moulds,as we have our own skill of excellent CAD research and design technology.Presently we have a workshop of more than 12000 square meters with the staff of more than 100 people.We fully realize the vital part of screwdrivers to which the manufacturer should pay special attention is on the forehead,so we give special check to the forehead quenching degree of hardness and the torsional moment.Every batch of our products have been carefully examined and the result of the examination completely achieves or surpasses the US-Canada area ANSI standard and Europe supervises'DIN standard.We have already obtained VPA/GS product quality authentication certificates.In addition,all the materials we are using now have passed ROHS.PAHS examination.

Our company is still in line with the practical innovational spirit,and will try our best to provide for the customers all the products with better cost performance,and at the same time willingly accept criticism and the suggestions from all our customers so that we can enhance unceasingly the quality of our products.

Our forever goal is to be trusted by our customers.

To load bits you already own, simply remove the bit from the end of tip holder by hand and replace with your own.

NOTE:

If your existing bit is longer than 1 1/8" inch, you can still use it with the TooLb Screwdriver, but you will not be able to rotate the chamber with this bit inside.

# SCREWDRIVER

Comfort, quality and versatility are the three attributes we engineer into our screwdriver line. LIBANG screwdriver handles are shaped and sized to provide comfort in the hand and torque at the fastener head.

The materials and construction are of the highest quality to resist corrosion, chipping and breaking. Reduces strain on the muscles of the hand when working for long periods.

## High torque grip
